Currently, we have 227 million PLN in assets for new investments, with about 19 million PLN available in commitment funds and about 157 million PLN in traditional funds at the level of MCI Capital Group.

In Q1 2011, the results of the MCI Group were significantly influenced by:

- Increased value of BioVentures certificates (the successful offering of Genomed in connection with its
  debut on NewConnect market) and TechVentures (new investments of the fund from the year 2010).
- In the EuroVentures division, the reduced value of the subfund's certificates caused by a temporary correction of ABC Data share price was compensated by the recognition of receivables and revenues from damages awarded by final court order in the JTT case.
