

Award for MCI

08.04.2025

MCI Capital won 2nd place in the Puls Biznesu ranking “Listed Company of the Year” in the “Development Perspective” category.

“This is the result of high assessment by analysts, institutional investors, brokers and fund managers, as well as recognition of the company’s strategy and activities over the past year,” informs Puls Biznesu. “Such a distinction proves not only a strong market position, but also the trust that capital market participants have in your company,” the organizers add.

“The Listed Company of the Year” ranking is not only the oldest, but also the most prestigious ranking on the capital market. Every year, 100 stock market analysts, investment and management advisors representing brokerage houses and offices, pension and investment funds select the best companies listed on the Warsaw Stock Exchange (GPW). Based on the assessments in five categories, the main ranking was created for the 26th time.
