

Biznes24: MCI – a fascinating company

08.09.2025

As noted by Roman Młodkowski, co-founder of BIZNES24 – business, markets, finance: “Among the fascinating companies on the Warsaw Stock Exchange, there is one alternative investment company with a large-scale business and interesting investment ideas, which has recently exited IAI with great success.”

He was, of course, talking about MCI Capital in a conversation with Paweł Borys, the fund’s Managing Partner.

As Paweł emphasized:

“We warmly invite all those seeking capital for new investments in dynamic growth. MCI Capital is currently the largest fund investing mainly in new technologies — but not only, as we have also expanded our strategy to include the healthcare sector.”
