18.07.2023

MCI Management sp. z o.o., the main shareholder of MCI Capital ASI SA, obtained financing from Raiffeisen Bank International AG in the amount of EUR 32 million.

“The financing increases our liquidity by about PLN 150 million and allows for more optimal liquidity management within the MCI Capital group. Thanks to this line, we have obtained an additional source of repayment of MCI Management’s debt to MCI funds, which significantly increases our investment capacity” – says Ewa Ogryczak, vice-president of MCI Capital.
