

MCI Capital improves its results and prepares for new investments – informs ISB News.

18.11.2022

The MCI Group continues the systematic trend of improving results. The consolidated results of the MCI Group in the third quarter of 2022 amounted to over PLN 60 million, and the level of the group's equity as at September 30, 2022 exceeded PLN 1.8 billion.

– Certainly, new investments remain our top priority. We consider the next two years to be a very attractive time to implement new investments and build the value of the current portfolio through M&A transactions. We believe that the coming period will be full of very interesting investment opportunities – says Ogryczak.
