

MCI Capital is launching an internship and employment program for Ukrainians

14.04.2022

MCI Capital - together with its portfolio companies - launched a paid internship and employment program for candidates from Ukraine. It is run under the patronage of the Polish-Ukrainian Chamber of Commerce.

- As part of the internship for which you can apply at:

https://mci.pl/en/formularz_rejestracyjny we have managed to create an attractive, we hope, program for people from Ukraine who came to our country as a result of the war and would like to use this time for professional development - says Aleksandra Kulas, program coordinator on behalf of MCI Capital. - While working on the program, many specialized entities and market experts offered their substantive support and helped to refine our idea. During the internship they will be providing us with their knowledge and experience - adds Ewa Ogryczak, MCI's vicepresident.

The organizers of the program, apart from MCI, are currently Morele, IAI, eSky and the Netrisk Group. The divisions for which candidates are sought are: customer service, accounting & compliance, program developers (incl. software, front end, PHP fullstack developers), database administrator, contact center, quality/complaints team, leisure operations team, digital marketing, finance, global operations, HR & payroll, reception & administration, M&A support. Internships are offered not only in Poland (Warsaw, Cracow, Szczecin, Katowice), but also abroad (Sofia, Bucharest, Vienna, Budapest). More companies are already declaring their willingness to participate in the program.

The partners of the program under the auspices of the Polish-Ukrainian Chamber of Commerce are also Meissner & Partners, Master Management Polska, the DGTL Kibil Piecuch i Wspólnicy Law Firm and the Lesław Paga Foundation.

About MCI Capital:

MCI Capital is a leading technology-oriented private equity fund operating in the CEE region. The MCI Group focuses on companies for which digitization is the basis of business models (including retail, financial services, TMT, healthcare as well as transport and logistics). In over 20 years of history, the MCI Group has completed over 104 investments and 68 exits, including ATM (leader of modern data centers), Netrisk (the largest online insurance broker in Hungary), Mall.cz (the largest Czech e-commerce company), DotCard (a leading Polish company that supports online payments), WP.pl (the largest Polish online media group), Invia (the largest online travel company in Central and Eastern Europe) or IZettle (a European leader in payment terminals acquired by PayPal).
