FINANCIAL SITUATION

“In the first quarter, our net profit was about 10 million PLN in the MCI CG and we recorded further growth of the net asset value. MCI's results were mainly influenced by the reduced share price of ABC Data SA and increased value of MCI.TechVentures certificates resulting from the revaluation of the investment in Netretail Holding B.V. adjusted to market value and discounted against the contract of sale. Anticipated revenue resulting from closing the deal in Netretail Holding B.V. is about 160 million PLN (EUR 38.5 million); with return of about 4.1x CoC and IRR of 175%. This result shows the strategy we adopted, assuming investments in emergent sectors of new technologies and Internet, and development of portfolio companies into regional and global leaders in their sectors, is the right strategy bringing measureable yields to our investors.” said Tomasz Czechowicz, president of MCI Management SA.

The total average net IRR on investments executed by MCI, in the in the period since the beginning of the group's operation to the end of Q1 2012, calculated as the sum of full and partial exits and residual value of investments, was 19.37% per year, thus confirming the position of MCI among the best private equity funds in Europe.

Value of assets under management (AUM) of the Group at the end of Q1 2012, was 805.2 million PLN (including full investment commitment of managed funds), and net assets of the company where 535.1 million PLN, growing by about 0.6% compared to Q1 2011.

IPO MCI PARTNERS

IPO on NewConnect is planned for the third or fourth quarter of this year and is being prepared in cooperation with Copernicus Securities SA. The offering will be targeted at institutional investors and equity emission in the IPO will not exceed 20%. The funds raised will be allotted for developing distribution channels of the certificates and fundraising abroad, as well as to finance a small (2-5%) GP share in foreign funds. The reason for the spinoff is the board's conviction that the value of MCI partners should grow faster than the value of MCI Management SA, because it is a function of value growth dynamics within the funds.
