

MCI Management the leading PE fund in Poland

20.12.2012

The MCI Group ranked second best PE/VC fund in Poland according to the Journal of Private Equity 2012. The fund received highest marks for its investment strategy and the quality of executed investments.

In its report concerning the analysis of the Polish private equity sector, the American Journal of Private Equity in 2012 presented the ranking of private equity funds operating in Poland. MCI received a total high score of 8.80 coming in second place on the list of Top-20 Private Equity Firms Operating in Poland.

The authors of the analysis mentioned numerous advantages of MCI Management that contributed to its high position in the ranking. MCI received top marks in the dealflow category (number and quality of considered investments), which speaks highly of its market reputation and brand awareness, as well as investment strategy category, showing the potential for further prospective investments of the fund.

Authors of the report also gave MCI high marks for it being a fund listed on the Warsaw Stock Exchange, which is in line with the global trend of making private equity funds go public as a way to improve the liquidity of funds raised from investors.

- We are consequently fulfilling our strategy of investing in prospective companies in the growing technological and medical industries. Our efforts are focused on the markets of Emerging Europe which show an impressive growth potential - comments Tomasz Czechowicz, Managing Partner of MCI Management. - I am glad that the institutions researching the PE market appreciate our effectiveness in executing investments and our key role in shaping the PE market in Central Eastern Europe, which is best proven by our high position in this ranking - he added.
