Events in the first half of 2013

-the first half of the year has been a successful one on many levels. Not only have we expanded our portfolio with new interesting companies, in Poland and abroad, but also we exceeded our official net result forecast, earning 91.2 million PLN net profits. In the second half of the year, we will concentrate on executing further interesting investments, with an interesting deal flow in the Czech Republic, Germany and interesting projects also beginning to appear in Poland. At the same time, we will dedicate ourselves to working on the portfolio and continue the processes of exiting portfolio companies - said **Tomasz Czechowicz, Managing Partner of MCI Management SA.**

In the first half of 2013, the MCI Management Group recorded 91.2 million consolidated net profits, compared to 30.1 million PLN the year before. Assets of the Group grew by 12.3% to 843.9 million PLN from 751.5 million PLN in the previous year. Assets under management at the end of June 2013 were 957 million PLN; that is 15.3% higher than at the end of 2012 and 16.4% higher than the result from the year before (822.2 million PLN). Very good financial results of the fund are mainly the result of increasing value of financial assets held - certificates of the funds MCI.TechVentures and MCI.EuroVentures.

The most important event in the first half of 2013, was signing the agreement to acquire 20% shares in the largest Turkish IT distributor - the company **Indeks Bilgisayar**. MCI acquired a 20% stake at a significant discount to the listed share price. MCI expects the value of acquired shares to grow as a result of the company's development on the impressively fast-growing Turkish market and steady dividend revenue. First dividends of about 5 million PLN were paid out to MCI in May 2013.

Another important event in terms of portfolio development was the investment of MCI.TechVentures in Wareco Limited, the company responsible for the website Answear.com, the largest online multibrand clothing store in Poland and Central Eastern Europe, offering over 200 most popular global brands of clothing, shoes and accessories.

Significant events and the results of major portfolio companies

E-commerce B2B market

- **ABC Data** - realization of its expansive development strategy and an upturn on the IT distribution market resulted in dynamic growth of the company's results. In the first half of 2013, ABC Data recorded revenues and EBITDA higher by 46% and 42% respectively. In September, the company will pay out dividends of 0.24 PLN per share. The strategy focusing on increasing revenues from exports and e-commerce was appreciated by stock market investors. In only a short time, the company share price exceeded target prices set in the recommendations of two renowned financial institutions;
- **Indeks** - MCI's latest acquisition recorded good financial results despite the taut socio-political situation, which impacted the company's share price. In the first half of 2013, Indeks generated revenue of 750 million Turkish liras and EBITDA of 23 million TRL, which means year-to-year growth by 21% and 27% respectively. The company expects an increase in revenue as a result of signing a major contract with Apple and commencing the construction of a commercial building on an attractive piece of property in Istanbul's business district. Latest recommendations from analysts show high potential for the company's stock price to grow.

E-commerce B2C and new technologies

- **Invia** - consequent fulfillment of its regional expansion strategy by increasing the scale of operations in the countries with the highest market growth potential for online sales of travel packages. Increased engagement in Russian company Travelata

and benefiting from growth generated by the market. As a result the company recorded good financial results, almost EUR3 million EBITDA in 2012;

- **Morele.net** - results improved by developing logistic cooperation with ABC Data SA, beginning the process of optimizing IT systems and total cost control. In the first half of 2013, revenues grew by several dozen percent, compared to the respective period of 2012 (from 82 million PLN to 100 million PLN);
- **Geewa** - strengthening its position on the online games market by introducing its products to the segment of mobile games. The flagship product, *Pool Live Tour*, the most popular billiards game on Facebook, is now available for mobile devices running iOS and Android. The company will launch four new games in its portfolio;
- **Answear.com** - the new investment of the fund recorded high annual dynamics of operating results. In a year's time its revenues from sales grew by over 150% (1H2013/1H2012), as a result of increased website traffic - traffic grew by over 170% through the year;
- **KupiVIP.ru / 21Diamonds / Windeln.de** - significant improvement of operating results of foreign companies acquired in 2012 and at the turn of 2012/2013. KupiVIP.ru benefits from increasing popularity of online shopping in Russia, which according to market analyses should grow at the rate of 35% per year. More importantly, it is estimated that in the next few years every fourth e-commerce transaction in Russia will concern the e-fashion segment. In turn, Windeln.de consequently pursues its geographical expansion strategy expanding its offer beyond Germany.
