

We want to be a leader in digital investments in CEE

10.01.2024

MCI Capital celebrates its 25th anniversary this year, this is also the era of technology and digitalization – says Tomasz Czechowicz, CEO of MCI in an interview by Wojciech Iwaniuk, CEO of InnerValue for “Value Talks” format.

“We certainly want to stimulate new investments. We want to be a leader in technological, software and Clima Tech investments in Central and Eastern Europe. I believe that it is a fantastic region producing increasingly better global, European and regional companies – says Czechowicz. “I just got started” – he laughs.
