

## **MCI.EuroVentures will receive PLN 36 million from the sale of the data center in Russia**

07.07.2021

**As a result of the sale by Linx Telecommunications Holding based in Amsterdam (Linx) of Svyaz, a data center operator in Moscow and St. Petersburg, MCI.EuroVentures will receive a dividend of approximately PLN 36 million.**

Linx is one of the international providers of solutions in the field of data transmission services and data center operator. Since 2006, the shareholder of this company in approx. 21 percent was ATM SA, which in October 2020 was sold by MCI.EuroVentures and Mezzanine Management to the Global Compute Infrastructure LP platform, supported by Goldman Sachs Merchant Banking Division.

Now Linx has sold its subsidiary in Russia with a data center in Moscow and St. Petersburg, which are the last operational parts of the entire business. Consequently, Linx will pay its shareholders a dividend of over EUR 50 million. The part attributable to MCI.EuroVentures is PLN 36 million. More than half of this amount has already been paid out and the remainder will be paid over the next few years
